A New Property That is Engaging Public Attention.

WIDE VEIN AND A RIGH PAY STREAK

A COMPANY FORMED TO GERRATE-THE FIRST SUBSCRIPTION OF SHARES TAKEN.

No more conclusive evidence of the faith the people of Rat Portage have in the mining interests of the district than the readiness with which they invest in any reputable mining enterprise and we are glad to state that they are turning out satisfactory in every case.

The latest local enterprise is the formation of the Little, Bobs Mining Company, to work the claim which they have recently purchased from J. A. Partington.

The first allotment of stock in the company was over subscribed, and had they wished to dispose of twice as much it would have been readily taken up. The phen menal richness of WING to our limited there we have the property is accountable for this been anable to place the goods cagerial so are stock, and nearly forward sponer, but now the store is all at the abscribers were acquainted beginning to assume its sping attire. with the property and therefore, were subden of the success of the compeny. I. Walsh is the leading promotor of the enterprise from whom all information may be obtained. Work was be commenced on the property. P.S.: Wanter, two applications for designation. Apply supersucking just as soon as it is possible to get supportanent, Second figor, place at dimen out. We happend the plassard men out. We append the report of Mr. Chas. Brent, M.E., on things from Ontario that he saw were the property. The rich pay streak, from which assays have been obtained as high as \$10,000 to the ton, is 18 inches wide, and the indications point to its widening a depth is rached. The total width of the vers is 11 feet, and it all contains good values.

A RESOLUTION CALLING ON GOVERN-MENT TO CONSIDER MATHER'S PULL MILL PROPOSITION.

Mayor McCarthy had a full house at he regular meeting of the town council on Monday evening, all the menibers being present.

After reading the minutes of the previous meeting Town Clerk Currie produced a bunch of communications; which took about 40 minutes to read. The town clerk will be asking for an assistant if this stream of correspondence keeps up. They were on a variety of subjects). One man enquiring about farm lands in the vicinity, another in regard to an opening for a dentist, another as to the chances of success for steam laundry, etc. This is the kind of communications the town papers the east this winter. He had h large | get fired at them weekly, and to which | George Derry, a youth of about 17

In the list were communications from three premiers. Premier Laurier, missed. He was quite an athlete for a Premier Macdonald, of Manitoba, and boy and last year won the Boys' Bi-Premier Ross, of Ontario, acknowledge cylice race. His case is very sad on acinquirers that he had nothing to sell, hig receipt of resolutions in Rainy count of his youth and is more so be-Biver railway.

Thomas Walsh, Esq., Rat Portage, Ont.

Dear Sir .- I enclose herewith a schedule of the various working tests by amalgamation and of the assays made on the "Little Bobs" at my laboratory here.

The average assays of the schist vein called the "14 foot vein" is \$5.13 per

The average assays of the pay streak which has a known width of 18 inches is \$276.58. The very high assay of \$10.921.20 per ton was left out in making up this average, as this assay was affected by the very large quantity, of coarse "free" gold in the sample,

I do not consider that 18 inches is, the full width of the pay streak, but at the time of my visit to the property (March 22nd) this was all that was actually exposed. This pay streak occurs on the footwall of the "14 foot" vein, and I should recommend that the first work to be done should be the stripping of the surface along the footwall, as I think this pay streak extends some distance further in this

1 I shall be pleased to make a regular examination and report upon the "Little Bobs" as soon as spine development has been done, Sincerely,

CHARLES BRENT. The following is the schedule of

working tests and assays on "Laule Bobs

Partington, 100 lbs. sample, 90 lbs. dry weight, \$14.11 returned; amalgamation test No. 4, value per ton \$313,55. On Feb. 7th, 1900; sampled by Thomas Walsh, assay Xo. 1, from 11

Proposed Meeting of Owners and Managers of Mines.

WITH THE KEEWATIN POWER CO. .. THE COMPANY WILL LIKELY MEET THEM. ON A SATISFACTORY BASIS.

It is proposed as soon as arrangements can be made to call a meeting of owners and managers of mines in this vicinity to urge the Keewatin. Power Company to install at once a generating plant at the big dam. A large number of mines now in active operation and others about to start are willing to put in electric power for all purposes, and are anxious before putting in new plants toking w whether it will be possible in the near future touse electric power.

. If the mine owners and managers can get together and give an estimate of the amount of power they will possibly require, and also give a guarantee of some specified time, we believe the company will only be too glad to look upon the proposal, favorably and install a generating plant at once if On Jan. 20th, 1900, sampled by J. A. The guarantee is satisfactory.

Mr. Mather, the moving spirit and promoter of the power company, has never been indifferent to the interestof the district, and we feel assured if a number of the mines in the Shoal lake district, and also those nearer at hand, will combine in an effort to lay before him their possible requirements as to electrical power, that a generating plant would be installed in shortlorder. Mining in this district is passing itinitial stages and getting to be a settled industry of great importance. Mine managers are beginning to look more and more into detail as to expenses, and to the lessening of the

We have large areas off wood suitable for fuel, but we have also an immense water power, and it is merely a question which is the cheaper power.

Noxt week we will present some figures regarding the present cost of furnishing power in several of the larger mines, and thus give an idea of the amount of money that might be timued MINING BROKER, RAT PORTAGE in the direction of the power company, rie and Mayor McCarthy were ap nor require so much power.

ance committee.

A petition was received from owners of real estate on Savage and Lottie streets asking to have the streets graded and macadamized under frontage

Petitions were received from owners of property on Agues and Grace sts. and Lakeside park asking that new roads be laid out and graded.

Mr. Erickson, the Scandinavian Saturday, Baptist minister, addressed the council regarding the opening of a new street, and stated the inconvenience a number of people were subjected to.

J. W. Humble, on behalf of the board of health, addressed the 'council and stated that they had purchased a nuisance ground, where it would be possible to burn the refuse and thus dispose of it permanently.

The finance committee presented their report and recommended the

Most Distinguished Regiment in the World.

SIR R. BULLER ONE OF ATS HEROES.

THERE ARE IN IT ELEVEN VICTORIA CROSS MEN-THE REGIMENT HAS 34 DISTINCTIONS OTHER FAITS.

The British regiment with the most distinctions is, according to an article by George A. Wade in the Pall Mall Magazine, the King's Royal Rifle Corps, the "Gallant Sixtieth."

The regiment has 34 distinctions. These are not inscribed on its colors, because "rifle regiments" carry no colois; but they stand to the credit of the command and are engraved on the regimental coat of arms. The regiments which come nearest to the Sixtieth in point of distinctions are the Rifle Brigade, with 29 distinctions, and the Gordon Highlanders, with 20.

A fact which is not generally known is that this crack regiment was raised in America, and was then known as the Sixty-second Loyal American Provincials. Two years after its formation-in 1757 the command became the Sixtieth, and that designation has been retained ever since that time. A second battalion was formed in 1705 und a third in 1805, and two years later a fourth battalion, was added. Besides this regiment there is only one other regular regiment the Rifle Brigade that has four battalions.

Until 1814 the regiment wore a scarlet uniform with blue facings; but in that year this was altered to a green uniform with scarlet facings. The badge is a bugle on the Glengariy, and on the helmet place is a bugle with strings on a Maltese cross. Above this is inscribed the regin ental no to. "Celer et Aidax." On the achis of the cross, are the names of the battlesfought by the regiment, and the whole is surmounted by the imperial grown. The color sergeant wears a badge called a "color" badge, because the regiment curries no flags or standards.

The regiment took part in more than one-fifth of the engagements of the British army since the Bays of Marlborough, and won the praises indispatches of Generals Wolfe, Wel-Ington, Colin Campbell, Wolseley and Roberts. It was in the van at

pore and other towis, it may be said that when a hundred of the enemy that when a mind of the chemical took refuge in aithut an attacking party of about tweety Riflemen storm ed the place and batented every man of the bundred on the spot. The Rifles according to the New York. Tibune. King's Royal Rifle Corps won no less that even Victoria Crosses in the Muthry. The value of the Rifles made such a favorable impression on the soldiers of India that the Ghoorkas asked to have the green facings of their owl uniforms changed to scarlet, so that they might resemble

men who fought sew- in 1857.

The Second battillion was present at the taking of the Taka forts in North China in 1800, and gen years later the Rifles accompanied Wolseley into the them would fill pages. Thomestake of Ontario Mining Co., Limited

The Greatest Body of Pure Quartz ever discovered in any land.....

OME idea of the immensity of the size of this great ging deposit may be gained from the fact that it is rearly a mile long, and 400 to 600 feet wide. It carries surface values of from \$6 to \$8.95 per ton. The body is so large that figures are almost beyond belief. For instance, it we take fore only one foot deep from the surface of this tremendous ore body it will turn out 102, 01 tons. We should average 84 to the ton/at lowest cal-culation, which would yiell 800,855. The cost to hime and mill this ore should not exceed \$1.50 per ton. Then go down 100 feet. 1,000 ft, 5,000 ft, figure the value of gold bullion that can be produced 1,000 ft, 5,000 ft, figure the value of gold bullon that can be produced from this great mine, which one prominent miningams says is the Homestake of South Dakotdand the Alaska mines folled into one, Those properties pay big dividends on ore that mills from \$1.60 to \$\frac{3}{2}\$ per ton in gold, with big expenses for fuel and water, which will be reduced 50 per cent, in the case of the Homestake of Ontatio mine as it possesses free water with cheap electrical power available.

THE GREAT HOMESTAKE GOLD, MINE OF ONTARIO

is situated on the Lake of the Whods. IS miles from Rat Portage, Ontario, and contains 100 acres of land. It is conceded to be the most valuable gold bearing estate in this country so rich in big producers of gold bullion, some of which have been sold to Englis capitalists for millions of dollars. for the Homestake mine, but the discoverer knew the value of the property and would not sell, preferring to retain an interest in themine by taking pay therefor in stack, of the company, and has pooled his interests so that it in no Away can interfere with the treasury stock.

The capital stock of the company is \$1,250,000 divided into 1.250, 000 shares of \$1 each par value. becality of the owners and promoters is shown in the placing of 50,000 shares in the treasury. the proceeds of the sale of which are to be exclusively devoted to development work and purchase of necessary machinery. It is the most litieral conservation of the inprests of the shareholders or in . yet made by any mining . mounty vesting e

THE SHARK A DRUDGE

& GOOD WORD FOR THIS SCAVENGER OF THE OCEAN.

Naturalists Credit the Much Abused Fish With a Special Sense Which Guides It to the Offal of the Seas on Which It Feeds.

The shark is undoubtedly a "dog with a bad name." He is called opprobriously the "tiger of the sens" or the "sallor's foe" or any other scurribus pame which happens to be landy. Much mid Scovil block, Rat Portage, Ont. is thrown at him, and as he seldom finds a defender most of it sticks. Hard-lines this! Because in reality this blue water bogy sis a bumble and useful public Fervant, who performs ancomplainingly the duties thecessary, but hardly attractive connected with the sanitation of the Dens. The shark is the common scavenger and general sudertaker of thefocean. He is not and for reasons connected with his to we observe this mystic tery innote at a speed finit never can be. primarily a fish of prey.

Open any captured shark, and you will field clear groof that this is so. A few Ethingled bigs of rope yarn, a battered corned beef tin, a corned buttle containlng mi insulting message to the tipler (thrown eyerboard by some meetigal wage) or a sailer's cap which has been lost in a l pule-all tend to show that the shark is a high of husingsslike larbits, with a Leen eye to any chance windfalls which may come in his way, but the more digestible ! contents of his stomach, consisting to it.

is of carries of every kind, all give the whetere so off strong, evidence that the 12 . had owners of them werested diece & in fact, we covery much dead when Latuntine subitary inspector come actual and, condemning them as autsauces, hemoved them into his even internal reffise

A bring arramancion of catefully dollected evidence on this point poures conthis ively that there are as a matter of fact only two acticles of his ordinary. ment which the shark is able to capture Elive-viz. an occasional to wary sea fewl which he may happen to sucprise asleep on the surface of the water and the ugly, extopustike squat, whose finited penars of beam trop give a chance to our himgry John Kir & prowner.

The strack, then, so far from being the go'e died pirate which the nevelist paints hore, is a men hardworking, commembre dendre har as such deserves if Let konduces at not note interaction. Rut. is just what he hevers gots. The saller looks (upon thus as is hereditary for, against which he has a death found and upon whose forenss when it spinwis and flaps aferenseless on the deck may conclus. to matter how revolting, is having And. Jick -untaright child of antare as he iscan be wondishly ernel whom he is mathe vein d. with thoughtless good migor, will per the the most atrocious barrispo ties on the captured shark and no more rieffice at he is being expel than a child dies who pulls the legs oft a fly

It is a curious thing and so far as prosout knowledge goes unite inexplicable how a shark seems to have an anecomic perception of the presence of entrion. Hy cutue of what sense does he know that at a distance of perhaps a course of males. there is food to be had for the picking up? It can hardly be sight, and to say that it is the sease of smell presupposes no offactory apparatus of such marvelous debency that one good whilt from anlayecage "harness cask" would surely burst the machinery up for good and all, and

Scovil block, Rat Portage, Out.

Scovil block, Rat Portage, Out. They were expensive toys rather than setions investments. Varrolonce saw a saend tank is Lydia containing fish which came to the edge at the sound of a flute and which no one was allowed to touch. and which no one was allowed to touch.

The Sch of the Roman noble are, he says,

nearly as second.

Hornesius, who had spent a mint of money on his salt water fish tanks at Backs, was found but in buying all the disk for his table at Pozzabli. He fed his the baself and was much more anxliefs lest they should be bangry "than I am about my asses, which bring me in a go of prefit," Varro, scorhfully remarks. Half the behermen of the place were empayed in catching small lish to give to she big ones, and sulfed fish was provided when the sea was too rough for the boats to go out. Hortensius would make you a present of a team of males sooner than of pa single one of his multets

Lacullus gave carte blanche to his architect to rain bimself if he could man-age, of means of subterlanean passages, o contrive a sort of tidd in his tanks at Buine, so as to keep the water cool in superior when fishes in confinement suffor notch from the heat, as I have been told at the Naples aquarium, a beautiful and wonderful place, isurpassing the dreams even of a Roman fish maniae.

Vacro speaks of some one who was more anxious about his sick fishes than about his sick slaves, but the story of the Robert "who fattened his lampreys on i's slaves" belongs to after timess. Like ther stories which are told for the bene-55 of youth, it lacks exactitude. This seems to have been the truth: A millionaire freedman of the major of Pollio Vedias was entertaining Augustus at sunslave broke a crystal goblet, zed, grdered him to be thrown . The slave appealed to the he asked his host to pardon Min. · Polito refused. Augustus then and tear pardoned the man blues of and had all of (s crasta) 2 s broken and the filled Contemporary Re-

Two severe cases that were completely cured by the Great Blood Purifier and Healer,

Burdock: LOOD

Suffered For over eleved years I 11 Years. Juffered with Dyspensia and tried everything I could think of, but was unable to get relief until I took Bury dock Blood Bitters. I had only taken one bottle when I commenced to feel better. and after taking five or sex bottles was entirely well, and have remained so ever since, and feel as though B.B.B. had saved my life.—Mrs. T. G. Joyge, Stanhope, P.Q.

Covered My Unite boy, aged to With Sores, year, was a complete mass of sores, caused, the doctor said, by had blood. His head and body were entirely covered with scres, land we could find no cure. Final y light a bottle of Burdock Blood Bitters, and beforesones half the bottle was gone he began to improve and by the time it was finished there was not a sore on him.

I used the B.B.B. as a wash as well as internally, and it seemed to give great relief as soon as it was put on .- Mrs. thilip Mitchell, St. Mary's, Ont.

a- I railed him tont of cell!

and before evening she had shar same fate as my uncle.

"The reign of terror had indea begun with us. The girls had fled territied at the fate which had befallen their protectors, and I was mediating in a half stupefied way the same weas-ure when a knock came at the door. and two men who had often eater and drung at my uncle's table came and made me a prisoner, confiscation all the possessions of the family to the stated

"In those days a man's foes were often members of his own hourshold. I offered no resistance. The block of i the day had completely unmanual me. I made certain that I, too, should die that night. But my time was the re: come

"In consequence of the later es of nece the hour I was taken to the towkp-s. on, a dismal building which I ad L. ver known to be occupied. The red was thrust into a deep dungeon and left a total darkness till morning, when I doubted not I should be combined to tention to the same crueb fate as my pool r-a. A little

"But morning came, as I gue ded by the sound without, and still ne summons. Worn out with suspense and waiting. I fell asleep. When I gwo! e. bunger and thirst oppressed me. Hupplly I had stored some bread authoreat and a small bottle of wine in the of tite pockets of my coat preparatory to my intended flight. Of this I naw ate and drauge. No one came night use, and yet brould hear sounds as if watched prisoners were being led forth but of ! neighboring ceils, doubtless to death, for they wept and pleaded - varily, as it scéined to me

"But the third day a great stillness fell on the prison. I could not sinderstand it. My senses were entropied fer want of food, for my small stock ! had long been exhausted, and I linest lacked strength to wonder whyel waleft to live so long. Presently atose an awfal terror lest this should be n.v. sentence to perish, miserably for weat of food in this damp dangeon. De h ou the scalfold appeared light by connothing,? said the pale man parison. I chamored at my sprison door I shouled as loudly as prould All to no purpose! Then I bugst intoan agony of tears. My fate was too dresifful to bear. With the softmat e. of vourb 1 pitied and bemoaned invest sorely. All at once words carlle into my hand that I had fearned years ago as aftext in the school, Tear that i ... for lam, with thee; be not disanged.

for I sum thy God." They came like a ray of light remy hrison, and I chang to the from the it faid that meancut been wade to me hy a pitying God. I felt hoothed laying no near relatives. and hopeful, and in this condition ! Visit some distant ones sankiback in a doze or swoon

"How time passed I could not tell. day kind night were alike to med in my I woke upto find light and - a kind, good fellow, warmth and kindly faces about me tol respected in the place. Captain John, of the steamer Mika-do, is busily engaged in getting the beat ready to do a big season's work. Interest beat ready to do a big season's work. I and Human in Salyation: April 11,

and evening on Elister Sunday.

TO CURE A COLD IN ONE

Clothing and Men's Furnishings

WIRG to the large increase in our business we find our present stores too small. We have rented the large store in the CLOURHER BLOCK, two doors North of our present premises and will open up our CROTHING and FURNINHING DEPARTMENT there on Saturday.

our Glothing Department is at present we have not been able to do justice to the wants of our bustomers, but in the new store we will be in a position to supply you with everything you may reg and in the line of Men's and Boys, (lothing either Ready-to-wear, or made to order. We also carry a 't I see runent of Men's Furnishings, including White and Colored Shirts, Ties, Collars, Sox. Underwear, hats. Caps, etc., and you will find our goods are always up-to-date and reasonable in price.

greatly new store we expect to largel Minchease our Ordered Clothing trade, which has been greatly hampadid for lack of room. Now is a good fluid to make your selection and leave, your order for your Spring Suit: for We have several cases of New Clothing which we have not been able to show you, but on Saturdly these will be ready for your inspection in the New Store.
